

european society for precision engineering and nanotechnology

**17th International Conference & Exhibition,
Monday 29th May to Friday 2nd June 2017**

Hannover Congress Centre,
Hannover, Germany

euspen's international conference and exhibition provides a leading forum for industrialists and academics alike to review the best of world-wide industrial innovation, progressive research and technology developments.

Delegates will gain an insight into the precision engineering and nanotechnology priorities of Europe's leading industrial nation.

This event offers the possibility to see latest advances in traditional precision engineering fields such as metrology, ultra precision machining, additive and replication processes, precision mechatronic systems & control and precision cutting processes. Furthermore, new topics will be addressed covering the new SI and applications of precision in biomedical sciences.

Themes

- New SI
- Mechatronics and Control
- Measuring Instruments and Machine Tools: Design and Performance
- Metrology
- Replication and Additive Manufacturing
- Handling and Automation
- Mechanical Manufacturing Processes
- Non-Mechanical Manufacturing Processes
- Applications of Precision Engineering in Biomedical Sciences
- Advances in Precision Engineering and Nanotechnologies

Key dates

1st Sept 2016	Call for abstracts
28th Oct 2016	Online abstract submission deadline

*Topics are nominal at time of printing.
Please check our website for up-to-date information.
