

RhySearch is the leading research and innovation center in Switzerland in the fields of High- and Ultra-Precision Manufacturing and Optical Coating. With our infrastructure of systems and machine tools, as well as our measurement technology, we are unique in Switzerland. RhySearch is a public institute based in Buchs SG. For the department of High- and Ultra-Precision Manufacturing we are looking for a

Sales Engineer Ultra-Precision Manufacturing (Pensum 80%-100%)

a person who is responsible for our sales in this area.

- The main task is the active acquisition of new research projects and service orders, including support in the preparation and submission of project applications.
For this purpose, you can access the support of our broad-based team of qualified scientists and project managers.
- This includes maintaining and expanding our network of companies, research partners, and organizations and associations.
- You will help to position us well with appearances at events and trade fairs and also help to organize such events.

You enjoy working in a team, want to make a difference with your work and are motivated to actively build and develop the future of our Ultra-Precision Manufacturing Lab with us. You have successfully completed a technical degree and existing contacts with manufacturing technology. Ideally, you have experience in sales. You like to engage with people and enjoy dealing with a variety of different personalities and organizations.

Your application

If such a role excites you and you see yourself as part of our team, please send your application in electronic form to Danijela Djordjevic, Head of Finance and Human Resources (danijela.djordjevic@rhysearch.ch). Dr. Thomas Liebrich, Head of our Ultra-Precision Manufacturing Lab, will be happy to answer your questions by phone +41 81 755 49 62 or by mail to thomas.liebrich@rhysearch.ch.
