

MET & PROPS 2026

Metrology and Properties of Surfaces Combining Structured and Freeform Surfaces

14-16th July 2026

London Southbank University, UK

euspens

University of
HUDDERSFIELD
Inspiring global professionals

EST 1892

LSBU

Tuesday 14th July 2026

Time (BST)	Workshop Programme
09:45 – 10:00	Workshop Registration
10:00 – 12:00	MDPI Academic Publishing Workshop - Open Access, Peer Review & the Ethical Use of AI in Publishing? (Coffee break 11:00-11:15)

Time (BST)	Conference Programme
13:00 – 13:30	Meeting Registration
13:30 – 13:35	Welcome Address by Prof. Liam Blunt, University of Huddersfield, UK
13:35 – 13:40	Welcome from Associate Dean - Research and Innovation, Professor Issa Chaer at LSBU, UK
13:45 – 14:15	Keynote 1: Tactile perception and mechano-transduction at the stem cell scale in contact with rough surfaces and in the case of touch with the human finger <i>Prof Hassan Zahouani Laboratory of Tribology and Dynamics of Systems – UMRS CNRS 5513 – Ecole Centrale de Lyon, France</i>
Chair: Prof. Liam Blunt	Session 1: Functional Surfaces; Bio engineering; Data Storage; Aesthetic Surfaces; Archaeology and Anthropology; Forensic Applications
14:20 – 14:40	SK O1.01 Session Keynote: How to recognize soft or tense shock waves on the surface of prehistoric obsidian tools <i>Odysseas Boitte, University Paris 1 Panthéon-Sorbonne / UMR 7041-ArScAn, FR MPSFS26131</i>
14:40 – 14:55	O1.02: Investigation of Bacterial Colonisation on Porous Titanium Surface Architecture <i>Danish Ashraf, University of Huddersfield, UK MPSFS26111</i>
14:55 – 15:10	O1.03: Assessing ecosystem structure and changes in deep time using dental microwear texture analysis <i>Cassius Morrison, UCL, UK MPSFS26110</i>
15:10 – 15:30	Discussion
15:30 – 16:00	Coffee & Networking
16:00 – 16:30	Keynote 2: Atomic-scale Precision in Optical Scattering Metrology <i>Prof. Kevin MacDonald, University of Southampton, UK</i>

Chair: Prof Jane Jiang	Session 2: Measurement & Instrumentation inc. XCT and in-process measurement
16:30 – 16:45	O2.01: Characterisation of an ultra-compact metasurface based chromatic confocal probe <i>Varun Raj Konnanath Puthanveetil, University of Huddersfield, UK MPSFS26107</i>
16:45 – 17:00	O2.02: Tool Wear Monitoring Utilizing Angle-Resolved Scattering Light Sensors <i>Alexander Müller, RPTU Kaiserslautern, DE MPSFS26112</i>
17:00 – 17:15	O2.03: Adaptive Precision Raytracing for Fast and Highly Accurate Computed Tomography Simulation <i>Lenarde-Oliver Friedrich, RPTU Kaiserslautern-Landau, DE MPSFS26118</i>
17:15 – 17:35	Discussion
	Close – free evening

Wednesday 15th July 2026

Time (BST)	Conference Programme
09:00 – 09:30	Keynote 3: Surface Metrology: From Optics to Nanophotonics <i>Professor Dame Xiang (Jane) Jiang DBE FREng, University of Huddersfield, UK</i>
Chair: Prof Guido Tosello	Session 3: Design, Traceability and Calibration
09:30 – 09:50	SK O3.01 Session Keynote: Developing Surface Metrology as a Scientific Discipline <i>Christopher Brown, Worcester Polytechnic Institute, USA MPSFS26108</i>
09:50 – 10:05	O3.02: Recent advances in the surface texture traceability infrastructure in the UK <i>Henk Potgieter, National Physical Laboratory, UK MPSFS26124</i>
10:05 – 10:20	O3.03: A responsive screen and calibration technology for fast phase measuring deflectometry <i>Chenping Zhang, University of Huddersfield, UK MPSFS26128</i>
10:20 – 10:35	Discussion
10:35 – 11:00	Coffee & Networking
11:00 – 11:30	Keynote 4: From profiles to freeform characterization, and beyond <i>Francois Blateyron, Digital Surf, FR</i>
Chair: Prof. Paul Scott	Session 4: Surface and Freeform Characterisation (Part 1)
11:30 – 11:45	O4.01: Sensitivity analysis of surface texture parameters for angle-related LPBF-manufactured aerospace components <i>Robert Tomkowski, KTH Royal Institute of Technology, SE MPSFS26102</i>
11:45 – 12:00	O4.02: Curvature Matters – Stop Trying to Measure It <i>Mark Malburg, Digital Metrology Solutions, Inc., USA MPSFS26105</i>
12:00 – 12:15	O4.03: Surface characterization of sawn wood: a comparative study of new and worn saw blades under varying process conditions <i>Sabina Rebeggiani, Halmstad University, SE MPSFS26114 (poster)</i>

12:15 – 12:30	O4.04: Relationship between rolling resistance and texture parameters: a laboratory study on controlled texture surface <i>Veronique Cerezo, Université Gustave Eiffel, Campus of Lyon, AME-EASE laboratory, FR MPSFS26104</i>
12:30 – 12:50	Discussion
12.50 – 14:00	Lunch & Networking
Chair: Dr. Robert Tomkowski	Session 4: Surface and Freeform Characterisation (Part 2)
14:00 – 14:15	O4.05: Local hardness variation in Ti5553 machining chips measured by nanoindentation <i>Michele Tunesi, Politecnico di Torino, IT MPSFS26117</i>
14:15 – 14:30	O4.06: On the Correlation of Angle-Resolved and Feature-Based Surface Texture Parameters <i>Matthias Eifler, IU International University of Applied Sciences, DE MPSFS26121</i>
14:30 – 14:45	O4.07: Impact of surface slope and orientation on the surface characterisation of three-dimensional objects <i>Guido Tosello, The LEGO Group/Technical University of Denmark (DTU) MPSFS26127</i>
14:45 – 15:00	O4.08: Intrinsic scale-space filtering for freeform surface characterisation on triangle meshes <i>Wenhan Zeng, University of Huddersfield, UK MPSFS26133</i>
15:00 – 15:20	Discussion
15:25 – 16:30	Coffee & Poster and Exhibitor Networking
15:30 – 15:40 Chair: Dishy Phillips	Industry Session • Digital Surf • Polytec UK
15:40 – 15:45	IOP Publishing - Procedure for Paper Selection - Ian Forbes
15:45 – 16:30 Chair: Dishy Phillips	Poster Session P1.01 Nano-engineered antibacterial surfaces via two-photon polymerization on biocompatible coatings, <i>Gabriel Chiodega, Università Degli Studi di Padova, IT MPSFS26109</i> P1.02 Friction and wear properties of conductive rails used in electric road systems, <i>Manuela Genesseeux, Université Gustave Eiffel, FR MPSFS26119</i> P1.03 Feasibility assessment of a MIM-inspired bronze-polymer molding route using additively manufactured tooling and direct air sintering, <i>Amogh Vedantha, Krishna, Halmstad University, SE MPSFS26120</i> P1.05 Metrological problems of measurement 3D printed surfaces, <i>Tomasz Kozior, Politechnika Świętokrzyska, PL MPSFS26125</i> P1.07 Effect of melt pool behaviour on surface morphology and defect formation in laser powder bed fusion processed 316 stainless steel, <i>Nan Kang, Arts et Metiers ParisTech, FR MPSFS26130</i>

16:30 – 18:00	Laboratory Tours and short refreshment break
18:00 – 18:45 19:30 – 22:45	Leisurely walk to Westminster Pier ready for Cruise boarding Departure for Networking Dinner Cruise on River Thames

Thursday 16th July 2026

Time (BST)	Conference Programme
Chair: Prof. Bengt-Göran Rosén	Session 5: Surface Generation by Manufacturing Processes
09:00 – 09:15	O5.01: Machine learning- and X-ray computed tomography-assisted surface quality optimization of laser powder bed fusion-fabricated AlMgScZr alloy <i>Nan Kang, Arts et Metiers ParisTech, FR MPSFS26129</i>
09:15 – 09:30	O5.02: Feature Parameters-guided Semantic Surface Characterisation Framework <i>Weixin Cui, University of Huddersfield, UK MPSFS26115</i>
09:30 – 09:50	SK O5.03 Modeling and simulation of surface generation in manufacturing <i>Guido Tosello, Department of Mechanical Engineering, Technical University of Denmark (DTU)</i>
09:50 – 10:05	Discussion
Chair: Prof. Mohamed El Mansori	Session 6: Tribology and Wear
10:05 – 10:20	O6.01: A New Ex-Situ Method for real contact area estimation under normal loading <i>Ainhua Guinea, Mondragon Unibertsitatea, ES MPSFS26101</i>
10:20 – 10:35	O6.02: Effect of a transfer layer on the cohesion state of the road gravel surface and its impact on adhesion and wear: a new concept for understanding tribological mechanisms <i>Hassan Zahouani, Ecole Centrale de Lyon MPSFS26132</i>
10:35 – 10:50	O6.03: Areal surface texture analysis of porosity replication from tool steel inserts into injection moulded acrylonitrile butadiene styrene parts, <i>Guido Tosello, Technical University of Denmark, DK MPSFS26103</i>
10:50 – 11:05	Closing remarks by Prof. Liam Blunt, University of Huddersfield, UK
11:05 – 11:35	Conference ends with Coffee & Final Networking
11:35 – 13:00	Optional session for delegates Live interactive talk on using a white light interferometer for surface measurements. An introduction to WLI for surface topographical measurement of both surface texture, tribology type applications and how to take care of data processing to ensure correct and sensible data processing. This interactive session will take place within the LSBU instrumentation laboratory. <i>If anyone has some interesting samples then please bring along as it can be possible to get some test measurement results.</i>
